- + WHAT DID AMERICAN INDIANS across eastern North America find so alluring about Ohio flint?
- + WHAT WAS THE PURPOSE of the mysterious mounds and monumental geometric earthworks?
- + DID AMERICAN INDIAN farmers build astronomical observatories to track the seasons?

These are just a few of the fascinating questions explored in *Ohio Archaeology*, an unprecedented chronicle of the American Indian cultures that flourished in the state for over 12,000 years.

Author Bradley T. Lepper takes readers on an incredible journey of scientific discovery, revealing what is known and what remains a mystery about the spectacular achievements and everyday lives of American Indians in prehistoric Ohio. Each chapter also contains 28 feature articles contributed by top regional scholars about specific sites, concepts, and investigations. *Ohio Archaeology* is a tribute to the unmatched legacy of the first Ohioans.

About the Author:

DR. BRADLEY T. LEPPER has investigated archaeological sites throughout the state as Curator of Archaeology for the Ohio Historical Society. Dr. Lepper also serves as a visiting professor in the Department of Sociology and Anthropology at Denison University. Lepper, who is passionate about science and public education, has written numerous reports and chapters about archaeology for professional journals and academic works.
